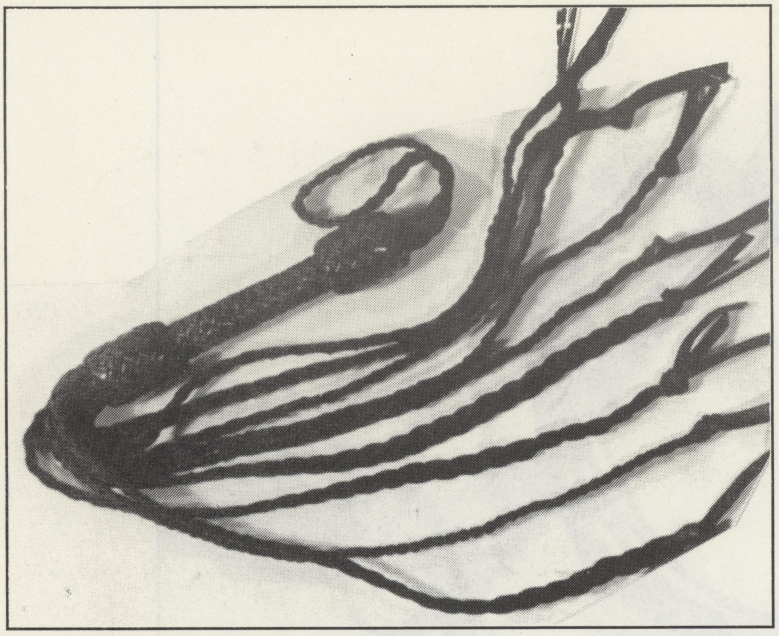
WHIPS



Above, Knotted Flat Braid, small version.

Knotted Flat Braided *(left ⬅)*

Caresses yet lands with authority, this versatile whip can leave deep, rich memories. The nine tails are soft flat braids ending in a slightly nasty knot. Choose the Large (#111): handle 8½″, tails 21″ at the knot; or the Small (#112): handle 6½″, tails 15″ at the knot. Tails are black, with diamond handle (see ***Notes on Whips***, page 3, for handle color choices).

No-Knot Flat Braided *(below ⬇)*

Wonderful as a warm-up whip, or for those times when marks aren't appropriate. Also a nice whip for novices. Tails caress, but you know they've been there. The nine tails are soft flat braids each ending in a tab of leather. Choose the Large (#121): handle 8½″, 21″; or the Small (#122): handle 6½″, tails 15″, good for close-up, tender area work. Tails are black, with diamond handle (see ***Notes on Whips***, page 3, for handle color choices).

Lightweight Flogger *(below ⬇)*

Our light model flogger consists of 27, ⅜″ -wide garment leather tails. A nice way to wake up surfaces with a light leather massage. The small version has lighter leather, for an even softer, sensual caress. Comes with the diamond handle (see ***Notes on Whips***, page 3, for handle color choices). Red or black tails, specify. Choose the Large (#131): handle 8¾″, tails 21″; or the Small (#132): handle 7″, tails 15″.

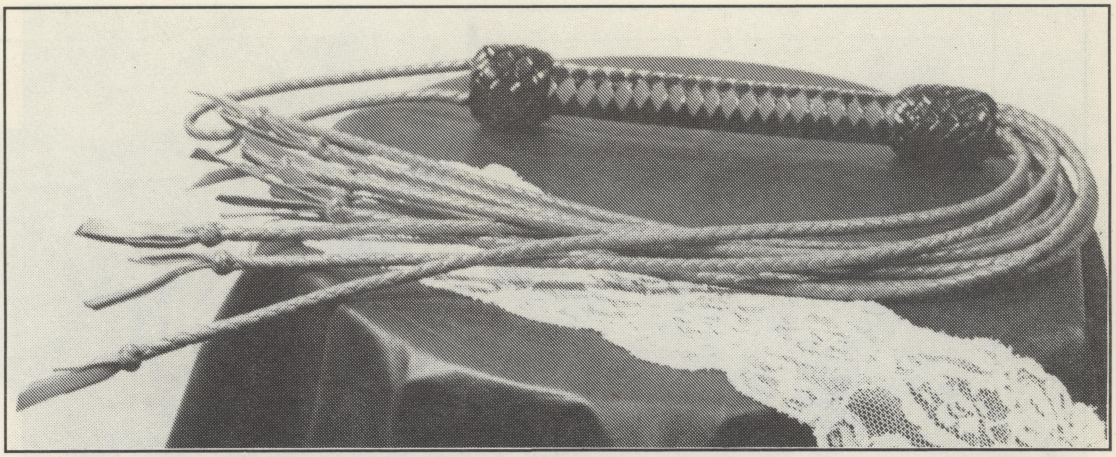
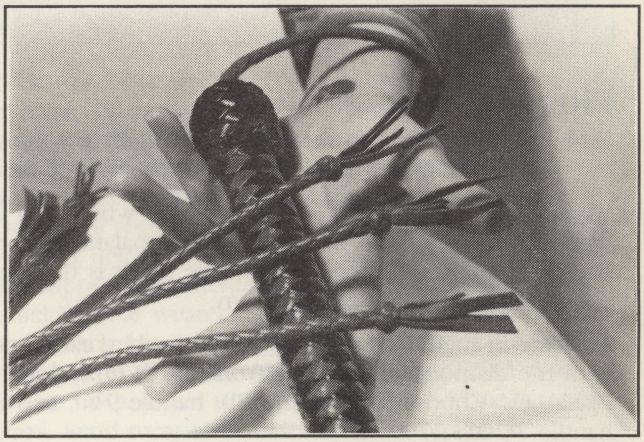
WHIPS

Jay Marston... is among the finest of whipmakers, and her attention to detail will delight you. The whips are all cut out by hand, skillfully handwoven, and carefully constructed. Her designs have all been field-tested, and time proven.



Diamond Cat *(above ⬆)*

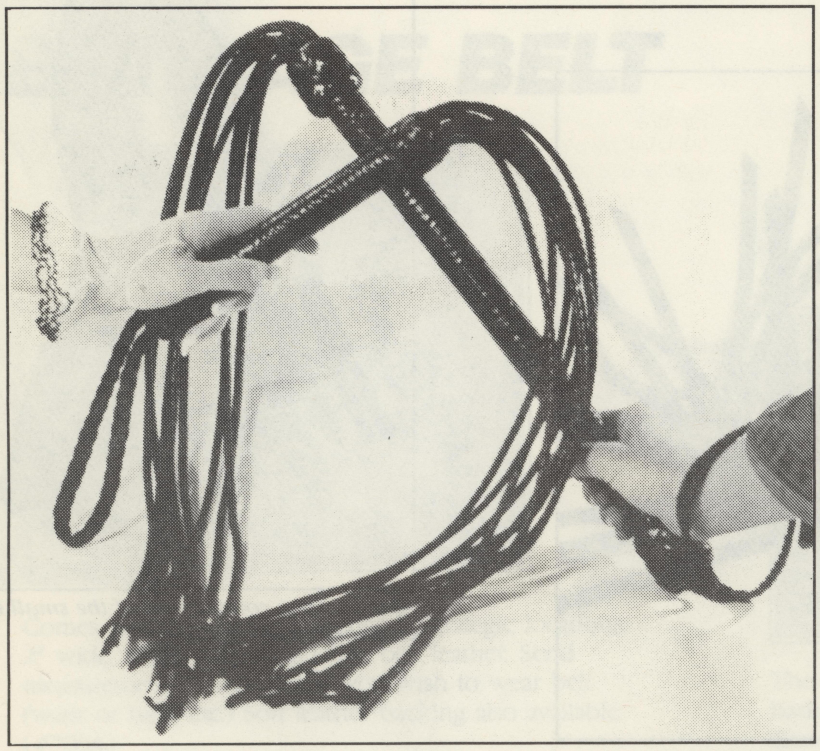
This beautiful, classic cat is distinguished by its unusually tight weaves, fine balance and honed-in direction, giving it a concise aim. The nine tails are round braids finished with turks-head knots. Though a powerful whip, it can be quite versatile. Handle 7¾″, tails 18″. Comes with all-black or all-red tails, and the diamond handle (see ***Notes on Whips***, this page, for handle color choices). (#141)



Above, detail of Diamond Cat

Herringbone Cat *(below, handle from left ⬇)*

Same as our other round-braided cat in design and capabilities, this model is different in that the handle is completed in a herringbone-type weave and finish knots. Luxurious. Handle 8½″, tails, 19″. Available in all black, or red tails and red handle with black handle-finish knots. (#145)



Roman Cat *(left, handle from right ⬅)*

A stylized whip for the sandal-movie enthusiast. The extra long handle lends itself to your imagination. Available with the diamond or herringbone (pictured) weave handle, but comes in all-black only. Handle 17″; tails 21″ at knot. (#149)

Notes on Whips

The diamond handle is pictured above. You may choose one of the following color(s) per whip: black only, red only, black and red, black and silver, red and silver. Finish knots are black.

Whips will be black unless otherwise specified. See individual descriptions for available choices.

Whips are counter-weighted to assure proper balance.

Top grade leathers used throughout.

Custom whips are also an option, contact us.

WHIPS

Left, Flogger, small version

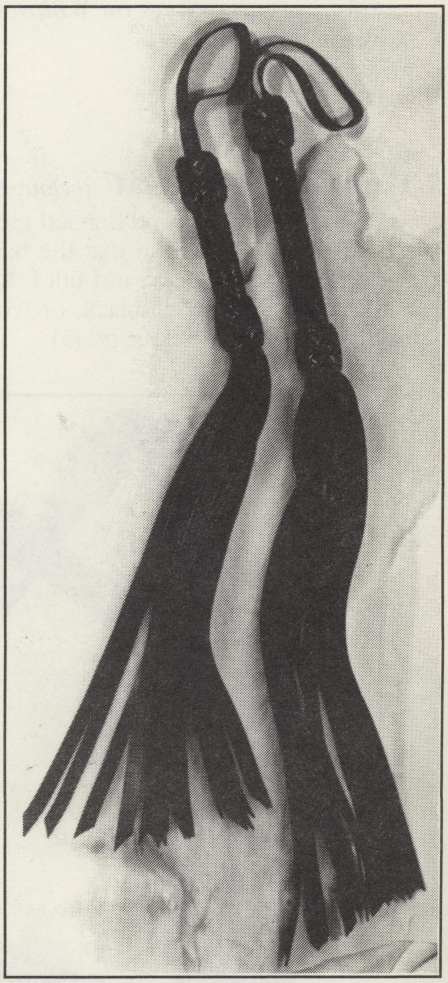
Flogger *(this page)*

Floggers are different from the cat (9-tails) style whips, in that the force delivered by a flogger is more widely dispersed, because of their many flat tails.

We consider this to be our most versatile whip for a deeper massage, or going the distance. While all our whips are counterbalanced, these are fully weighted in the handle to balance the heavy tails. The result is that, in use, these floggers can seem to take on a life of their own.

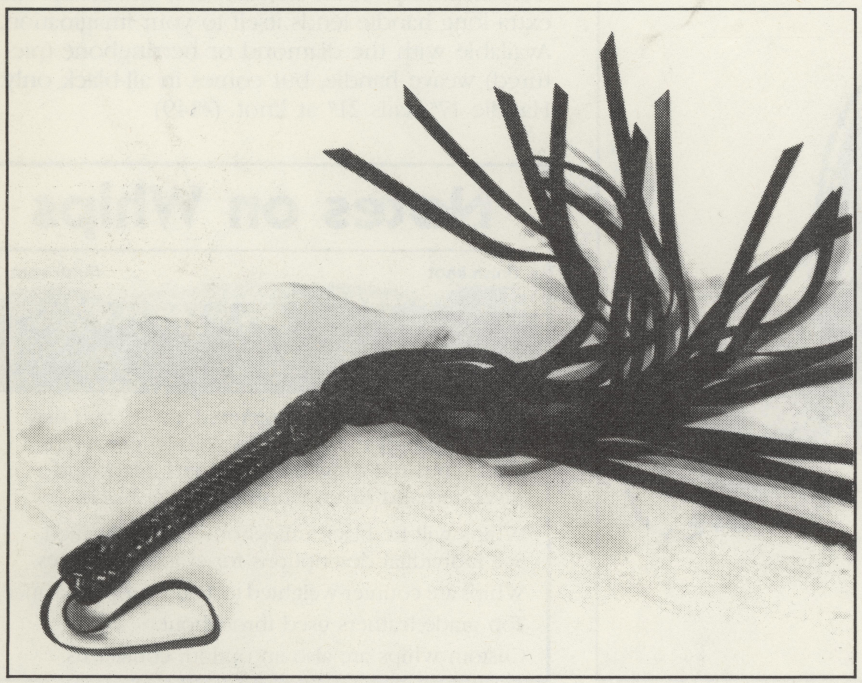
Available in medium or heavy weight leather, each has 20, ½″ -wide tails. Comes with the diamond handle (see ***Notes on Whips***, page 3, for handle color choices). Black tails. Choose the Large (#171): handle 9¾″, tails 21″; or the Small (#172): handle 7″, tails 17″.

If you do not specify whether you want the medium or the heavy leather, we will send the medium.

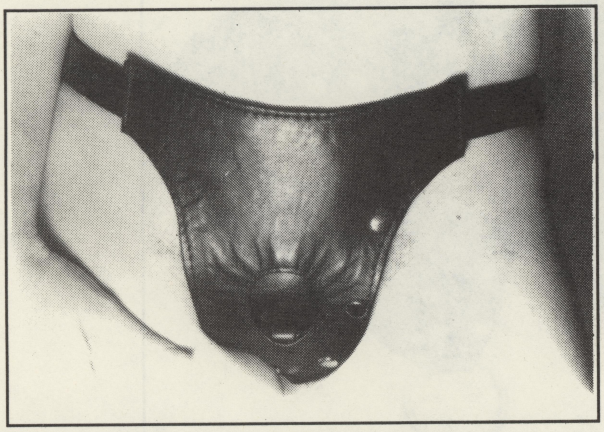


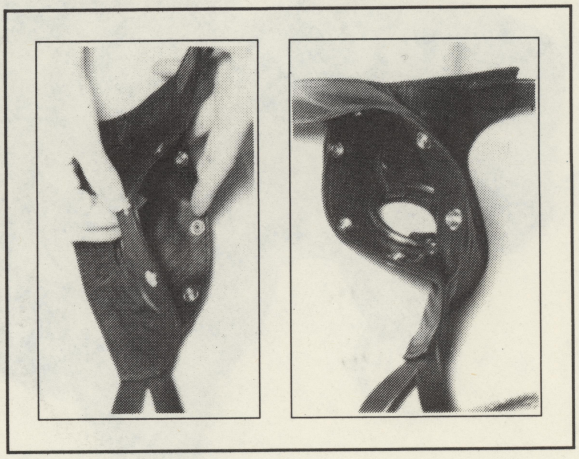
Above, a size comparison of the small (l) and large (r) Floggers.

Below, Flogger, large version



DILDO HARNESS





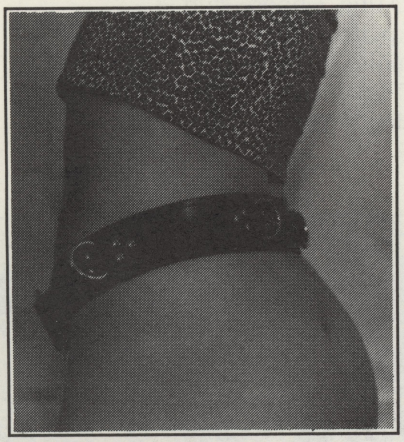
Dildo Harness *(left, and above ⬅⬆)*

We designed our dildo harness to be more comfortable and give more control than those we'd tried previously. The body of the harness is made from high quality, soft leather, and the straps are of top-grade latigo belt leather for durability. Two pieces of leather are sewn back to back for both the front and back parts of the harness body. The front and back parts unsnap at the side (see detail shot, above left) to load the dildo. Inside is a ring, held in place by straps and snaps. The ring holds the dildo in place, and is interchangeable to accommodate different sized dildos (see detail shot, above right). Because the ring is hidden behind the front part, it helps prevent pulled hairs and snagged skin. The back part adds support and therefore control to the base of the dildo, as well as shielding the wearer. The between-the-legs straps can be adjusted along the back for comfort, and the side straps are fully adjustable. The front hole is 1¾″ diameter, it may be specified at 2″ diameter. Standard size fits any size up to 42″ at the hip bone, specify if larger size required. Send measurements: around at hip bone and from mid-crotch to rear at hip bone-line, to assure good fit. (#300)

Leather & Metal Color

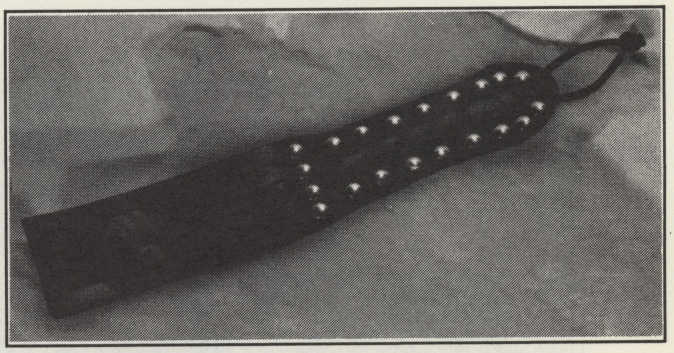
All leather is black unless individual description states otherwise. All metal is in nickel finish (silver color).

BONDAGE BELT



Comes with five welded D-rings in strategic locations. 2″ wide, black, top-grade latigo belt leather. Send measurement of area where you wish to wear belt (waist or hips, etc.) Soft leather backing also available. (#700A)

SLAPPER



The noisy top layer of strips tends to give our slapper a bark worse than its bite. Handle is stiffened inside for a firm grip. (#500)

COLLARS

Contour Collar *(left, and above ⬅⬆)*

This collar sits low on the neck and feels like a piece of jewelry. The shape is contoured down in the front to allow freedom of movement. Consequently it is very comfortable! Its adjustable slots fasten over a hasp which can be locked. (lock not included). The collar has a sewn-in lining of soft leather. Choose one of the above stud patterns (clockwise from far left): diamond (#710); red cut-glass jewels (#711); hexagram (#712); pyramid "stars" (#713). Or choose plain (will have rivets) (#714). Send lower neck size to assure fit.

1″ Locking Collar *(below ⬇)*

These traditional "dog" collars are made of top-grade belt leather and shiny metal. The buckle tongue has a loop which may be padlocked (lock not included). 1″ D-ring. Choose stud pattern (from top): large pyramid (#700); hexagram (#701); slanted diamond (#702); small pyramid (#703); cone (#704). Or choose plain (#705). Soft leather backing available. Include neck size to assure fit.

The following measurement requirements were omitted from product descriptions. Please send the following to assure fit (items are adjustable):

* For Posture Collar, #600, send measurement of neck, wrist, and from base of neck to waistline.

** For Thigh-to-Wrist Restraints, #601A, send wrist and thigh measurements.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

RESTRAINTS

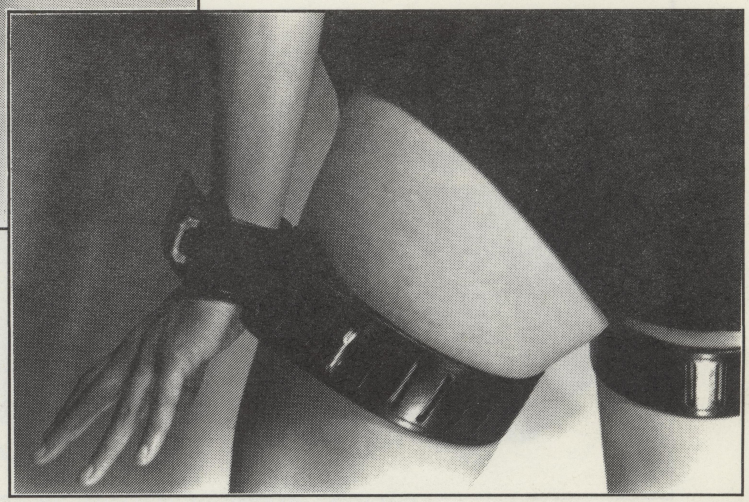
Posture Collar *(right ➡)*

This is a strict bondage piece. The collar itself, made of heavy latigo leather with a sewn-in soft leather lining, fastens with a hasp, which may be padlocked. A ring is attached to the front. The adjustable, detachable back strap has wrist restraints attached which also fasten with a hasp (padlocks not included). The back strap and restraints are made of top-grade latigo belt leather. (#600)

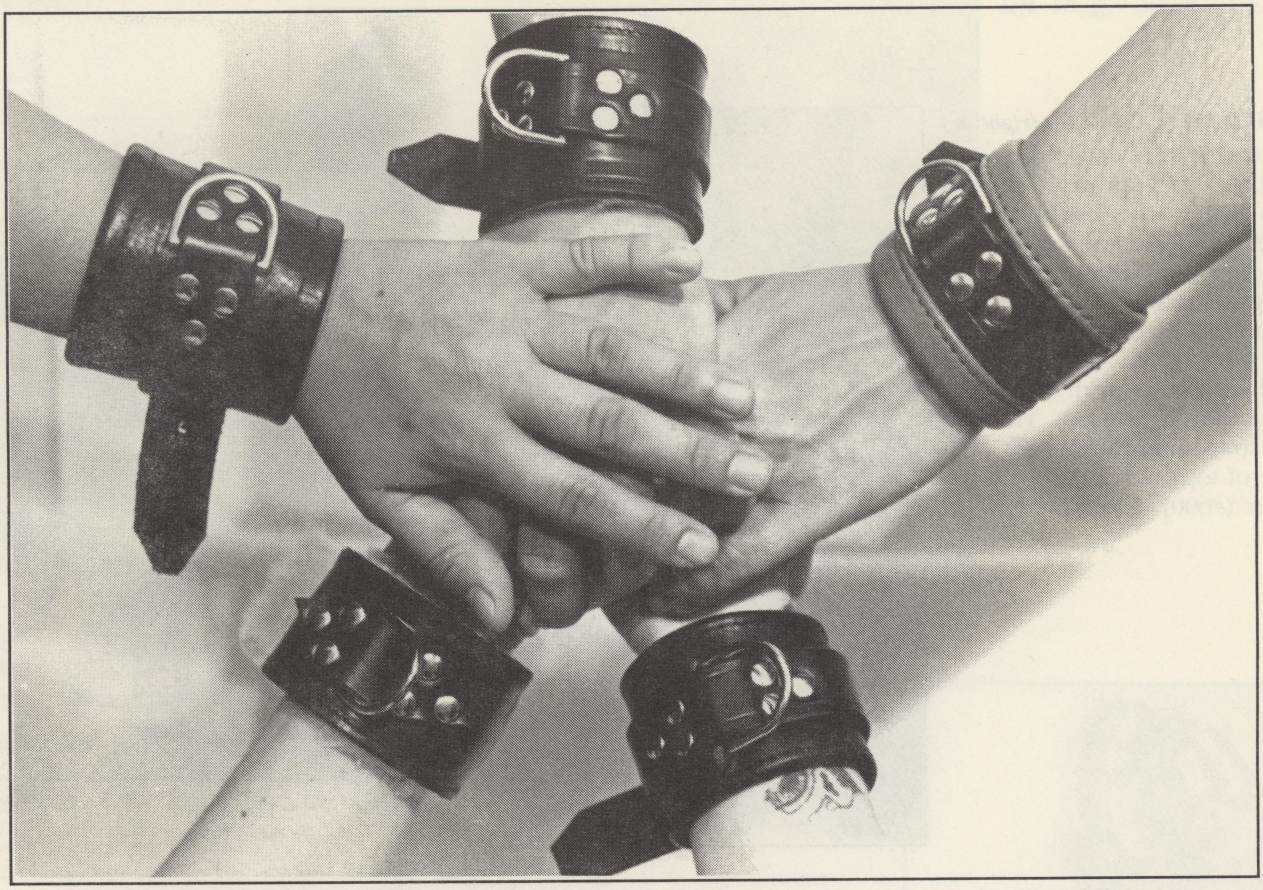
Thigh-to-Wrist Restraints

(left, below ⬅⬇)

These 2″ wide thigh restraints are connected to the wrist restraints, and each separately fastens with a hasp, suitable for padlocking (padlocks not included). Made of durable latigo belt leather. (#601A)



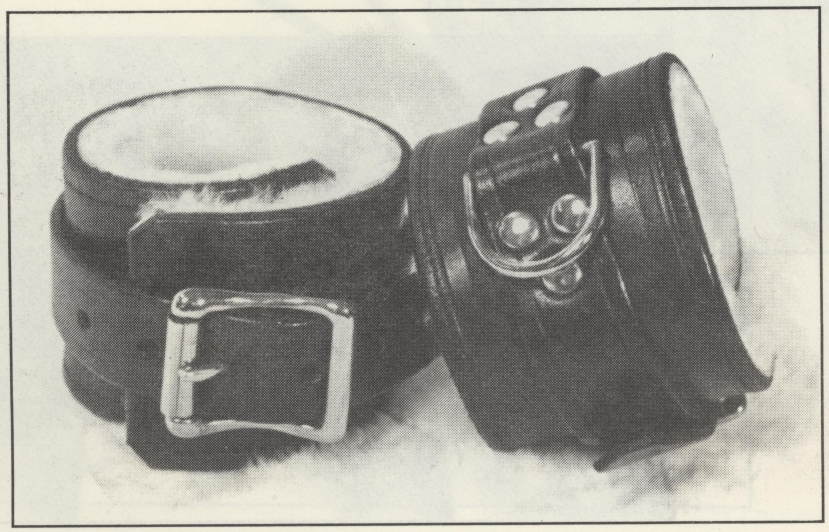
RESTRAINTS



Restraints pictured above, clockwise from top: fleece-lined, leather-lined (shown black with red lining), narrow triple-fold, locking fleece-lined, triple fold.

Notes on Restraints

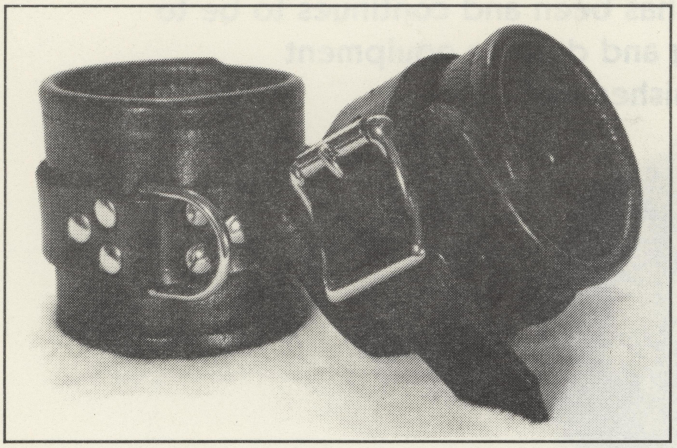
We make our wrist restraints in two sizes: ***Small***, for light and medium boned women; and ***Regular***. Please specify when ordering.

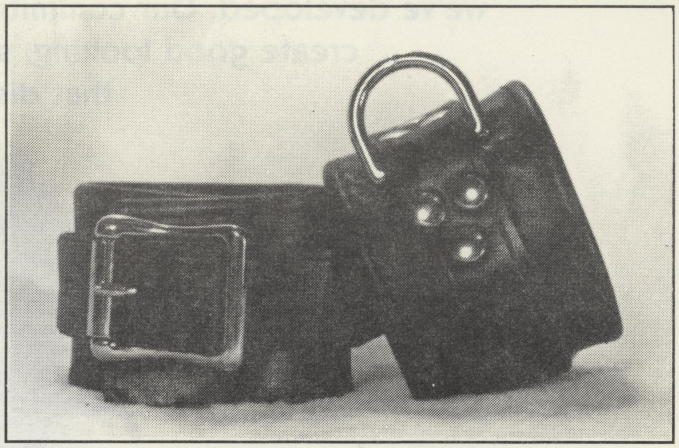


Fleece-Lined *(left ⬅)*

Made of top grade latigo leather, and lined with soft white fleece sheepskin. 2½″ wide, with 1″ D-ring fastens with strap and roller buckle. Wrist (#601), Ankle (#602).

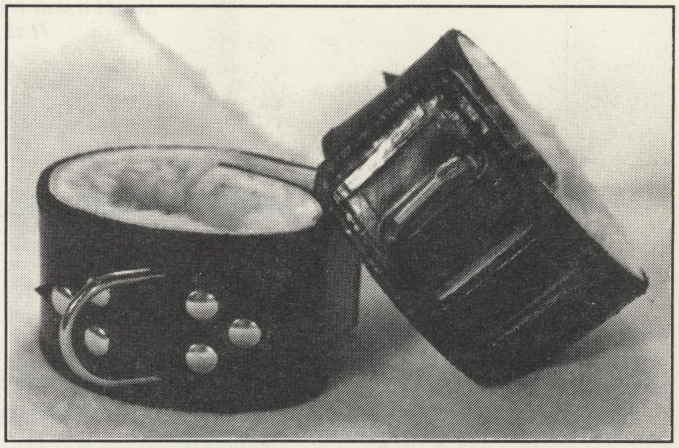
RESTRAINTS





Triple-Fold *(above left ⬆)*

Made of one piece of soft leather, folded in thirds and sewn, this restraint is strong, soft and comfortable. Fastens with a belt-leather strap with roller buckle. Has a 1″ D-ring. 3″ wide. Wrist (#621), Ankle (#622).



Narrow Triple-Fold *(above right ⬆)*

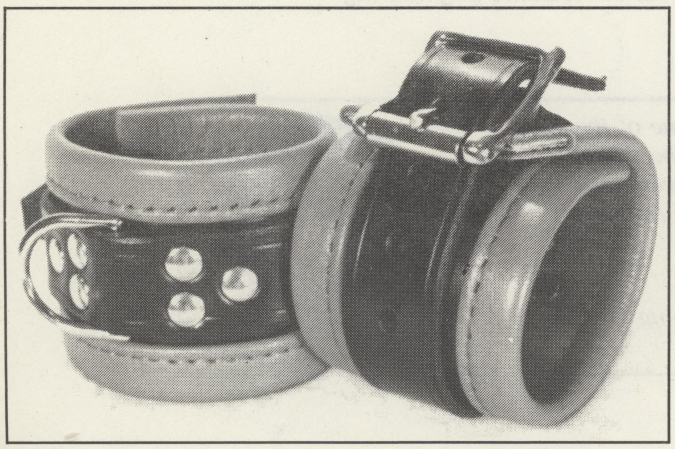
Same as our other triple fold, but 2″ wide. Its streamlined appearance lends itself to more descreet occasions. Wrist (#631), Ankle (#632).

Locking Fleece-Lined *(right ➡)*

Adjustable slots fit over hasp, which can be padlocked or clipped (not included). Made of top grade latigo leather, lined with soft white fleece sheepskin. 2″ wide, with 1″ D-ring. Wrist (#611), Ankle (#612)

Leather Lined *(below left ⬇)*

Made of medium weight leather lined with lightweight leather, with a belt leather strap and roller buckle, 1″ D-ring. 2½″ wide. Available all black, or black with red lining, specify. Wrist (#641), Ankle (#642).



Pictured below, from left: fleece-lined wrist and ankle restraints; leather-lined ankle and wrist restraints.
